2. *Tyco Healthcare Group LP, et al. v. Medrad, Inc.*, Civil Case No. 04-773, U.S.D.C. (S.D. Ohio) (“the Ohio litigation”)

Applicants hereby notify the Examiner that the ‘718 patent has also been involved in the Ohio litigation instituted by Tyco Healthcare Group LP (“Tyco”), Mallinckrodt Inc. (“Mallinckrodt”) and Liebel-Flarsheim Company (“L-F”), against Medrad for Declaratory Judgment. This Ohio litigation was filed in the United States District Court for the Southern District of Ohio on November 15, 2004, under Civil Case No. 04-773.

In the Ohio litigation, Tyco et al. alleged that the ‘718 patent is invalid, unenforceable and the claims of the ‘718 are not infringed (*See Tyco et al.’s Complaint of November 15, 2004, Background Facts, pages 4-6; First Cause of Action, pages 6-12*). The litigation documents listed in the attached Forms 1449 have been disclosed and/or made of record in the ‘224 application, and copies thereof may be found in the corresponding application file.

1) Tyco et al.’s Complaint for Declaratory Judgment and Jury Demand dated November 15, 2004;

2) Medrad’s Answer and Counterclaims filed December 28, 2004;

3) Tyco’s Reply to Defendant’s Counterclaims filed January 20, 2005

4) Tyco’s First Set of Interrogatories Nos. 1-8 to Defendant filed February 7, 2005;

7) Medrad’s Responses to Plaintiffs’ First Set of Interrogatories Nos. 1-8 to Defendant filed March 11, 2005;

9) Medrad's First Request for Entry Upon Land and Inspection of Things Thereon to Plaintiffs filed March 18, 2005;

10) Medrad's Consent Motion to Amend Answer and Counterclaims filed March 24, 2005;

11) Medrad's Amended Answer and Counterclaims filed March 24, 2005;

12) Medrad's First Set of Interrogatories (Nos. 1-9) filed March 24, 2005;

13) Tyco's Reply to Defendant's Amended Counterclaims filed April 27, 2005;

14) Tyco's Response to Medrad's First Set of Requests for Production of Documents and Things filed May 20, 2005; and

15) Tyco's Response to Medrad's First Set of Interrogatories (Nos. 1-9) filed May 26, 2005.

In Medrad's Answer and Counterclaims to Tyco's Complaint, and later, in Medrad's Amended Answer and Counterclaims that modified the "Facts" section of Medrad's Counterclaims including references to the '205 patent; adding a Third Counterclaims alleging infringement of the '205 patent; and modifying Medrad's Prayer for Relief, validity and infringement allegations relating to the '718 patent are set forth on pages 3-6 and 11-12. In the Counterclaims, Medrad also asserted that the '718 patent is currently the subject of reissue proceedings before the U.S. PTO, and the ongoing reissue proceedings concerning the '718 patent may result in amendment of the claims of the '718 patent and modification of their scope. Accordingly, Medrad might seek a corresponding stay in the present litigation case at the appropriate time to allow the reissue proceedings to be completed (page 10, paragraph 9).

In Tyco's Reply to Medrad's Counterclaims and Amended Counterclaims, Tyco et al. denied the infringement allegations of Medrad's Counterclaims relating to the '718 patent and stated that any request for a stay of the present litigation should be denied (page 2, paragraph 9, and page 3, paragraphs 15-18; or page 4, paragraphs 16-19).

IDS & Notice of Litigation

In Medrad's Responses to Plaintiffs' First Set of Interrogatories (Nos. 1-8), Medrad objected that the interrogatory was premature in that limited discovery has been done, and asserted that the '718 patent is currently in reissue proceedings and these proceedings should be with respect to the '718 patent pending the outcome of the reissue proceedings (pages 4, 8, 10, and 11). Medrad further asserted that Medrad's investigation of Tyco's infringement is ongoing but alleged that Plaintiffs' OptiVantage™ DH injection system literally infringes at least claims 24 and 27 in the '718 patent (and claims 6, 19 and 22 in the '537 patent) (pages 4-8).

In Medrad's Responses and Objections to Plaintiffs' First Set of Requests for Production of Documents and Things, Medrad objected to each request as being duplicative, overbroad, and not reasonably calculated to lead to the discovery of admissible evidence (General Objections on page 1; and Responses to each Request). Further, Medrad asserted that the '718 patent is currently in reissue proceedings and these proceedings should be with respect to the '718 patent pending outcome of the reissue proceedings (Responses to each Request, pages 3-17).

In Tyco's Responses to Medrad's First Set of Requests for Production of Documents and Things, the plaintiffs simply objected each Request to the extent that 1) each Request sought the production of documents or things that are protected by the attorney-client and/or work product privileges; 2) the Requests sought information unrelated to any claim or defense in this action and is likely to lead to the discovery of admissible evidence; and/or 3) the Requests were overly broad and burdensome.

In Plaintiffs' Responses to Medrad's First Set of Interrogatories (Nos. 1-9), non-infringement allegations relating to the '718 patent are set forth on page 6 (Response to Interrogatory No. 5) with references to the preliminary non-infringement chart attached as Exhibit A. Unpatentability and invalidity allegations, and unenforceability due to inequitable conduct allegations relating to the '718 patent are set forth on pages 6-8, Response to Interrogatory No. 6; pages 8-9, Response to Interrogatory No. 7; and pages 9-15, Response to Interrogatory No. 8. Note that information relating to the '718 patent (as well as to the '537 patent) of alleged prior art, Nemoto Sonic Shot 50 MR injector, the Medrad MR Spectris Injector, the Injektron 82 MRT 1.4 manual, U.S. Patent No. 5,472,403 to Cornacchia, and U.S.

IDS & Notice of Litigation

Patent No. 5,806,519 to Evans, III were disclosed in numerous documents submitted with the Information Disclosure Statement, and were also considered by the Patent Office during the prosecutions of the '718 patent and the '537 patent, respective (*See, for example*, IDS submitted on November 1, 2000; First Office Action dated December 18, 2000; and IDS submitted on May 17, 2001 during the prosecution of the '718 patent; *see also, for example*, IDS and Notice of Related Litigation submitted on May 19, 2003, and IDS submitted on May 29, 2003 during the prosecution of the '537 patent).

Applicants believe that certain of the alleged prior art references are not or may not be prior art to the application, and therefore reserve the right to assert that one or more of the references is not prior art to this application. Moreover, Applicants believe they can successfully swear behind many, if not all, of the Section 102 (a) and (e) references based on prior conception and/or reduction to practice.

Nevertheless, Applicants would like the Examiner to at least initially consider the subject matter disclosed in the relevant references vis-à-vis the pending claims because Applicants believe the claims will define over the references.

This Information Disclosure Statement is being filed before a first Office Action on the merit, and therefore, no fee is required under 37 C.F.R. 1.17 (p) for consideration of this Information Disclosure Statement. The Examiner is respectfully requested to initial copies of the attached Form PTO-1449 to show consideration of the references, and to return the initiated forms to the undersigned counsel.

Respectfully submitted,
